Petroleum based dry lubricant in handy stick form.

The stick with 1000 uses. Simply rub it on, it lubricates, stops squeeks, prevents rust, loosens sticking draws, windows and doors etc.
No mess!

A chemical welding compound for the repair of cooling systems cracks, flaws and porosities in automotive internal combustion engine cylinder heads and blocks.
Used as directed Chem.i.weld is not a temporary fix, but a permanent cure requiring no disassembly.
